*Vendoni tank*

MR. SPEAKER: The hon. Member Sri Ramachandran is not in his seat. The question and answer will be printed in the proceedings.

* 82 *Q.*—SRI K. RAMACHANDRAN: Will the Hon. the Minister for Public Works be pleased to state—

(*a*) whether any representations have been received by the Government from the residents of Paramakudi Town for closing the present channel feeding the Vendoni tank near Paramakudi Railway Station; and

(*b*) if so, the action taken thereon?

THE HON. SRI P. KAKKAN: (*a*) & (*b*) Some representations were received to close the Vendoni supply channel or to divert the water course by reopening an old channel to Vendoni tank to avoid damage to the town area. The question was examined, and it was found that the old supply channel no longer existed and nobody was able to indicate its alignment correctly. Consequently the existing supply channel could not be closed or diverted without affecting the supply to the tank. But measures are being undertaken to see that there is no danger to the town area by the construction of a new head sluice at the off-take of the supply channel.
